

INDIA'S FIRST CONVERTIBLE WATER PURIFIER.

UV to RO + UV

One Aquaguard to suit your changing water conditions

The new **NRICH UV + RO ON DEMAND** is another leap in technology from Aquaguard. This unique water purifier can be converted from just UV to a RO + UV water purifier as per the changing water conditions, thus eliminating the hassle and need of buying a new purifier.

NRICH
UV + RO ON
DEMAND

100% Mineral
Retention

50% Lower
Maintenance Cost

0% Water
Wastage

HOW DOES THE CONVERTIBLE TECHNOLOGY WORK?

STEP 1

Purchase the all new Convertible NRICH UV water purifier.

STEP 2

Raise RO conversion request as & when required.

STEP 3

Our service technician visits the house, checks the water quality and converts the UV purifier to a RO + UV water purifier.

STEP 4

Get upgraded to RO technology without buying a new water purifier.
