GOODNESS OF COPPER IN EVERY DROP*

*IS 10500: 2012 Drinking Water Specification (Acceptable Limit)

DID YOU KNOW ?

The quality of water has deteriorated and impurities present in tap water have increased over time. New age contaminants like Arsenic, Lead, Pesticides, Micro-plastics, etc. are now present in water, often in copious amounts. Tap water in our homes come from multiple sources like:

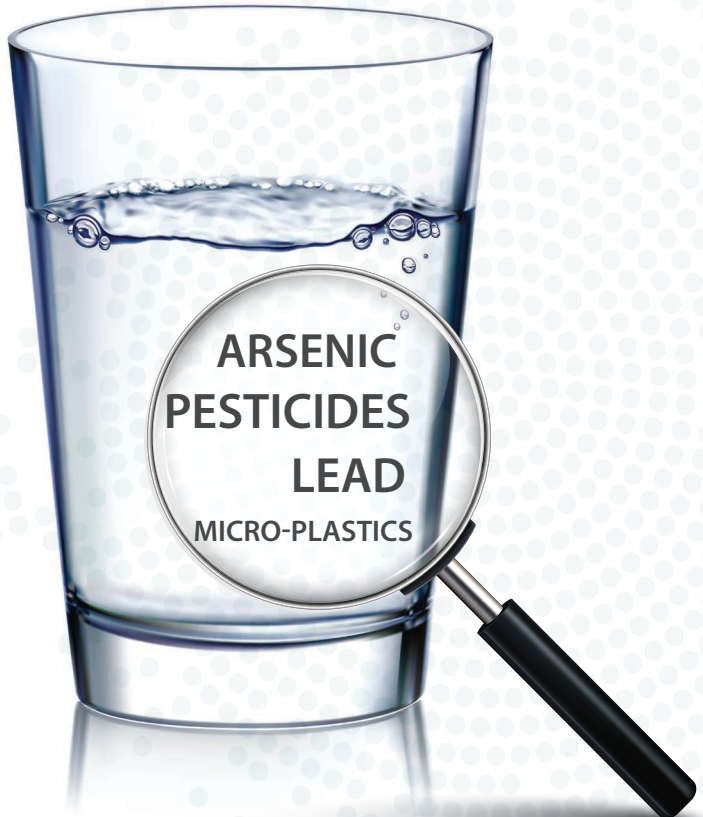

**Municipal
water**

**Borewell
water**

**Mixed
water**
