### 99.99% Virus and Bacteria Free Water

The Patented Active Ceramic Technology provides 6:4:3 log of microbial reduction which means 99.9999% (6 log) reduction of Virus, 99.99% (4 log) reduction of Bacteria and 99.9% (3 log) reduction of Cysts. This makes the water clean, pure and healthy for consumption.

### 100% Chemical-free Purification

The purification technology doesn't contain any harmful chemicals like Chlorine and Chloramine which are used by some of the brands. This ensures absolutely safe water for everyday drinking.

### As Good as Boiling Water

This water purifier provides water which is as safe as boiling water at a minimal cost.

### No Taste Change

The patented technology does not alter the taste of the water.
